

Google Ads Asset Guide

Arrows — Escape Puzzle
com.shayona.arrows · Prepared 2026-07-14

How to use this guide. Google promotes Android apps primarily through **App Campaigns** (automated across Search, Display, YouTube, Play, and Discover — you supply text/image assets and a handful of audience signals, and Google's models handle targeting; it does not use manual keywords or ad groups). If you also plan to run a traditional **Search campaign** pointing at the Play Store listing, that format does use manual keywords and ad groups, and that's the structure below: 12 themed ad groups, each with a keyword list and Responsive Search Ad copy. Section 1 gives the App Campaign text-asset pool (max 5 headlines / 5 descriptions); Section 2 gives the Search-campaign ad groups; Section 3 lists negative keywords; Section 4 gives every required image asset with pixel specs and a ready-to-use AI image-generation prompt.

Trademark note: none of the keyword lists below bid on competitor product names — do that only after legal review, as competitor-trademark bidding carries policy and legal risk in most regions.

1. Google App Campaign — Master Text Assets

Use these across the App Campaign's single asset group. Google auto-combines them into ads, so each headline/description should also make sense standalone.

Headlines (max 30 characters)

#	Headline	Len
1	Arrows – Escape Puzzle	22
2	Calm Daily Logic Puzzle	23
3	Slide Arrows, Clear Board	25
4	No Timers. No Pressure.	23
5	Hundreds of Free Levels	23

Descriptions (max 90 characters)

#	Description	Len
1	Tap an arrow — it slides free or turns red if blocked. Clear the board to win.	78
2	A calm, satisfying logic puzzle with daily challenges, streaks, and zero rush.	78
3	Hundreds of procedurally generated levels across 4 difficulty tiers. Play free.	79
4	New daily challenge and streak every day. Full dark mode. 10 languages.	71
5	Free hints, shaped boards, unlockable badges. No timers — just you and the puzzle.	82

2. Search Campaign — Ad Groups (12)

One ad group per theme keeps keyword-to-ad relevance (and Quality Score) high. Mix match types as shown: broad, "phrase", and [exact].

AD GROUP
1

Brand

Branded search terms for people already looking for this app by name.

Keywords

[arrows escape puzzle]

"arrows escape puzzle game"

"download arrows escape puzzle"

arrow slide puzzle shayona

[arrows escape puzzle app]

"arrows puzzle android"

arrows escape puzzle apk

RSA Headlines (≤30 char)

- Arrows – Escape Puzzle
- Official Arrows Puzzle App
- Download Arrows, Free
- The Original Arrow Slider

Logic & Brain Games

Users searching for logic-focused, non-reflex puzzle games.

Keywords

logic games	"logic puzzle games"
brain games	"brain teaser games"
brain training app	mind games
"logic games for adults"	[brain teaser]

RSA Headlines (≤30 char)

- Sharpen Your Logic Daily
- A True Logic Puzzle Game
- Brain Teaser, Zero Pressure
- Train Your Mind, Calmly
- Logic Puzzles That Relax
- Daily Brain Teaser Streak

RSA Descriptions (≤90 char)

- Pure logic, no reflexes needed — plan the path, clear the board.
- A brain teaser built for calm focus, not stress or timers.
- Daily challenges keep your mind sharp with zero pressure.

Positions the calm, no-timer angle against stressful puzzle games.

Keywords

relaxing games	"zen puzzle games"
calm games	"stress relief games"
"no timer games"	chill games app
"relaxing puzzle games"	

RSA Headlines (≤30 char)

- The Calmest Puzzle Game
- Zen Puzzles, No Timers
- Unwind With Arrows
- A Truly Relaxing Puzzle
- Chill Out, Clear the Board
- Zero Pressure, Just Puzzle

RSA Descriptions (≤90 char)

- No timers, no pressure — just you and a calm, satisfying puzzle.
- Built for unwinding: slow down, think, and clear the board.
- A relaxing daily ritual with streaks, not stress.

Short-session, low-commitment casual gaming intent.

Keywords

casual games	"casual puzzle games"
"simple puzzle games"	"easy puzzle games"
"quick puzzle games"	"short puzzle games"
casual game app	

RSA Headlines (≤30 char)

- Casual Puzzle, Deep Fun
- Quick Puzzle, Any Moment
- Easy to Learn, Fun to Master
- A Casual Game That Sticks
- Play a Level in Minutes
- Simple Rules, Real Challenge

RSA Descriptions (≤90 char)

- Tap an arrow, watch it slide free. Simple rules, real depth.
- Perfect for a quick break or a long session — your pace.
- Casual on the surface, genuinely challenging underneath.

6

Offline Games

Travel/commute/no-connectivity search intent.

Keywords

offline games	"offline puzzle games"
"games without wifi"	"no internet games"
offline brain games	"play offline puzzle"
[offline puzzle game]	

RSA Headlines (≤30 char)

- Play Anywhere, No Wifi
- A Great Offline Puzzle
- No Internet? No Problem
- Offline Brain Game
- Puzzle for Flights & Commutes
- Works Fully Offline

RSA Descriptions (≤90 char)

- Play full levels with no internet connection required.
- Perfect for flights, commutes, or anywhere signal drops.
- Hundreds of levels, all playable completely offline.

AD GROUP
7

Daily Challenge / Streak Games

Habit-forming daily-return mechanics — a real differentiator for this app.

Keywords

daily puzzle games	"daily challenge game"
"daily brain teaser"	"streak games app"
"daily puzzle app free"	daily logic puzzle

RSA Headlines (≤30 char)

- A New Puzzle Every Day
- Build Your Daily Streak
- Daily Challenge Awaits
- Don't Break the Streak
- One Puzzle a Day, Free
- Daily Brain Teaser App

RSA Descriptions (≤90 char)

- A fresh Daily Challenge with its own streak and trophy calendar.
- Track your longest streak and best win streak over time.
- Come back daily for a new puzzle and keep your streak alive.

AD GROUP
8

Sliding Puzzle Games

Targets the literal core mechanic — arrows sliding off the board.

Keywords

sliding puzzle games

"arrow puzzle game"

tile slide puzzle

"slide puzzle app"

"arrow sliding game"

[sliding puzzle]

RSA Headlines (≤30 char)

- Slide Arrows to Escape
- A Fresh Sliding Puzzle
- Arrow Sliding Puzzle Game
- Clear the Board, Slide Free
- Not Your Usual Slide Puzzle
- Tap, Slide, Clear the Board

RSA Descriptions (≤90 char)

- Tap an arrow — a clear path means it slides free off the board.
- A twist on sliding puzzles: plan the order, not just the path.
- Every level is a fresh sliding-puzzle challenge to solve.

AD GROUP
9

Free Puzzle Games

Price-sensitive / "free" qualifier searches.

Keywords

free puzzle games

"free brain games app"

"best free puzzle game"

"free logic games"

"free offline puzzle games"

[free puzzle game]

RSA Headlines (≤30 char)

- 100% Free Puzzle Game
- Free Logic Puzzle App
- No Cost, Just Puzzles
- Free to Play, Always
- Download Free, Play Free
- Hundreds of Free Levels

RSA Descriptions (≤90 char)

- Free to play with optional ads — no paywalls on levels.
- Hundreds of levels, all free, with an optional Remove Ads upgrade.
- Download free and start solving in seconds.

AD GROUP
10

Mind / Brain Training

Adjacent to brain-training apps; targets focus/attention framing.

Keywords

brain training games

"puzzle for brain"

brain exercise app

"mind training app"

"improve focus game"

[brain training]

RSA Headlines (≤30 char)

- Train Focus, One Puzzle
- A Puzzle for Your Brain
- Brain Exercise, No Stress
- Sharpen Focus Daily
- Mind Training, Made Calm
- Exercise Your Logic Daily

RSA Descriptions (≤90 char)

- A daily logic exercise that trains focus without the pressure.
- Built to sharpen planning and pattern recognition, calmly.
- Short daily sessions that add up to real focus training.

AD GROUP
11

No-Pressure / Anti-Stress Games

Explicit anti-timer, anti-stress positioning vs. arcade puzzle competitors.

Keywords

"low stress games"

"meditative puzzle games"

stress-free game app

"mindful games app"

"no time limit puzzle"

RSA Headlines (≤30 char)

- No Timers. No Stress.
- A Truly Mindful Puzzle
- Zero-Pressure Gameplay
- Play at Your Own Pace
- Meditative Puzzle Design
- Stress-Free Logic Game

RSA Descriptions (≤90 char)

- Every level waits for you — no timers, no countdowns, no stress.
- Designed to be mindful: slow down and think, at your pace.
- A puzzle game that never rushes you.

Visual/aesthetic differentiator search intent.

Keywords

"dark mode games"

"minimalist game app"

[dark mode puzzle game]

"minimalist puzzle games"

"clean design puzzle game"

RSA Headlines (≤ 30 char)

- Full Dark Mode Puzzle
- Minimalist Puzzle Design
- Clean UI, Deep Gameplay
- Dark Mode, Easy on Eyes
- A Beautifully Simple Puzzle
- Minimal Design, Max Focus

RSA Descriptions (≤ 90 char)

- Full dark mode support for easy-on-the-eyes night play.
- A clean, minimalist design that keeps focus on the puzzle.
- Simple visuals, satisfying gameplay — nothing gets in the way.

3. Account-Level Negative Keywords

Add these at the campaign or account level to filter out irrelevant clicks — mainly real-world "escape room" venue searches (a common false-positive for the app's name), piracy/cheat-seeking queries, and mismatched genres (archery/shooting games).

escape room

real life escape room

root apk

unlimited hints hack

archery game

cheat codes

cupid's arrow

shooting game

dating app

escape the room live

jailbreak

hacked apk

bow and arrow game

prison escape game

war game

4. Image Assets — Specs & Generation Prompts

Supply all three creative orientations (landscape, square, portrait) plus both logo formats — Ad Strength for App Campaigns improves sharply once every aspect ratio is covered. All images: JPG or PNG, ≤ 5 MB. Generate each prompt as background art only — AI text rendering is unreliable, so add the promo text overlay yourself afterward in a design tool using the app's real typeface.

Landscape

Aspect ratio	1.91:1
Recommended	1200 × 628 px
Minimum accepted	600 × 314 px
Where it's used	Primary format across Search Partners, Display, YouTube, and Discover placements — supply this one first.

Image-generation prompt

Flat vector illustration, wide 1200x628 landscape banner, solid white background. This must match the app's actual in-game board style, NOT a grid of boxed icon tiles: a soft, evenly spaced grid of small light-lavender-gray dots (#E7E8F3) covers the left two-thirds of the frame, like a dotted graph – no squares, no tile borders, no boxes of any kind. Floating freely over the dots are slim rounded-line arrows: each is a thick rounded-cap line (some straight, some gently bent across two or three dot-rows) ending in a compact solid triangular arrowhead only slightly wider than the line itself – sleek and minimal, not a blocky icon arrowhead. Render most arrows in near-black navy (#11142E) and vivid indigo-blue (#586FFE), pointing toward and off the edge of the frame as if sliding free; one arrow is solid flat red (#F23A5C), marking it blocked. In the top-right corner, a bold solid red ribbon banner cuts diagonally at 15 degrees with crisp white bold sans-serif text reading "ESCAPE", matching the app's icon. Reserve the right third of the frame as clean empty white space for a text overlay. Flat, crisp vector edges, no gradients, no glow, no drop shadows, no tile backgrounds anywhere. Overlay promo text (add separately in a design tool, not by the image model): "Calm Daily Logic Puzzle – Play Free".

Square

Aspect ratio	1:1
Recommended	1200 × 1200 px
Minimum accepted	300 × 300 px
Where it's used	Required for Discover, Gmail, and many in-feed native placements.

Image-generation prompt

Flat vector illustration, square 1200x1200 canvas, solid white background. Must match the app's real board style, NOT boxed icon tiles: a centered, evenly spaced grid of small light-lavender-gray dots (#E7E8F3) – no squares, no tile borders, no boxes. Floating over the dots are slim rounded-line arrows – thick rounded-cap lines, some bent across a couple of dot-rows, ending in a compact triangular arrowhead barely wider than the line – in near-black navy (#11142E) and indigo-blue (#586FFE), with one solid flat-red (#F23A5C) arrow marked blocked. A small red diagonal ribbon in the top-right corner reads "ESCAPE" in bold white sans-serif, echoing the app icon. Leave a clear open band along the bottom fifth of the frame for a short text overlay. Flat, crisp vector edges, no gradients, no glow, no tile backgrounds. Overlay promo text (add separately, not by the image model): "No Timers. No Pressure."

Portrait

Aspect ratio	4:5
Recommended	1200 × 1500 px
Minimum accepted	320 × 400 px
Where it's used	Newer format for Play/Discover placements — improves Ad Strength when supplied alongside landscape + square.

Image-generation prompt

Flat vector illustration, tall portrait 1200x1500 canvas, solid white background. Must match the app's real board style, NOT boxed icon tiles: a vertically elongated, evenly spaced grid of small light-lavender-gray dots (#E7E8F3) fills the center two-thirds of the frame – no squares, no tile borders, no boxes. Floating over the dots are slim rounded-line arrows – thick rounded-cap lines, several bent across multiple dot-rows as if winding toward the edge, ending in compact triangular arrowheads barely wider than the line – in near-black navy (#11142E) and indigo-blue (#586FFE), with one solid flat-red (#F23A5C) blocked arrow near the top. Draped across the top of the frame, a bold red ribbon banner with crisp white text "ESCAPE" cuts at a slight diagonal, matching the app icon. Leave open white space at the very bottom quarter of the frame for a text overlay. Flat, crisp vector edges, no gradients, no glow, no tile backgrounds. Overlay promo text (add separately, not by the image model): "Hundreds of Free Levels".

Square Logo

Aspect ratio	1:1
Recommended	1200 × 1200 px
Minimum accepted	128 × 128 px
Where it's used	Brand mark shown alongside headlines in native/Discover ad units — reuse the actual app icon art.

Image-generation prompt

Flat vector app icon, square 1200x1200 canvas, solid white background, no extra scene or props. One large bold black arrow pointing straight up, thick rectangular shaft with a sharp triangular head, positioned left-of-center. Two identical bold black arrows pointing left, stacked below-right of the upward arrow, same thick flat style. A bold solid red ribbon banner cuts diagonally across the top of the composition at roughly 15 degrees, containing crisp bold white sans-serif text reading "ESCAPE", slightly overlapping the top of the upward arrow. Pure flat design, solid fills only, no gradients, no shadows, no outlines, no glow – a clean sticker/decal-style logo mark. No text overlay needed; this asset is the logo itself.

Landscape Logo

Aspect ratio	4:1
Recommended	1200 × 300 px
Minimum accepted	512 × 128 px
Where it's used	Horizontal lockup for ad units that pair a small mark with a wordmark (e.g. some native/Gmail placements).

Image-generation prompt

Flat vector horizontal logo lockup, wide 1200x300 canvas, solid white background. On the left third, a compact version of the app's icon mark: one bold black arrow pointing up with two bold black arrows pointing left beneath it, thick flat shapes, and a small diagonal red ribbon reading "ESCAPE" in white bold text crossing the top-left of the mark. To the right of the mark, bold navy (#11142E) sans-serif wordmark text reading "Arrows – Escape Puzzle", vertically centered, roughly the same height as the icon mark. Generous white padding on all sides. Flat, crisp, high-contrast, no gradients, no shadows – a clean horizontal brand lockup suitable for a header banner.
